Wallingford, CT 06492
(203) 269-5088

**Device
Proprietary
Name**

SSD-1000 Diagnostic Ultrasound System

**Device
Common Name**

Diagnostic ultrasound system

Classification

The charts below list the Regulatory Class and Device Codes.

Subject	Description
Regulatory Class	Class II
Review Category	Tier II

Code	Description	Regulation
90 ITX	Transducer, Ultrasonic, Diagnostic	892.1570
90 IYN	Ultrasonic, Pulsed Doppler Imaging System	892.1550
90 IYO	Ultrasonic, Pulsed Echo Imaging System and Accessories	892.1560

Continued on next page

510(k) Summary, Continued

Identification of predicate devices	The SSD-1000 (Appendix E) is substantially equivalent to the SSD-1400, which is subject of a submitted and cleared 510(k): K972465.
--	---

Device Description	The SSD-1000 makes no changes to the indications for use, the ultrasound generator, transducer(s), controls, and signal processing technologies. There are no new system functions added, significant new clinical information provided or significant claims of added effectiveness. In addition, clinical applications/modes of operation provide no new significant interpretation of predicate device; the SSD-1400.
---------------------------	--

Probes	Only those probe that are the subject of the submitted and cleared 510(k) for the SSD-1400 have been added to the SSD-1000. Probes that have been added to the SSD-1400 using Appendix E and are intended to be used with the SSD-1000 are the subjects of this submission. A list of added probes has been provided.
---------------	---

Intended Use	<p>The SSD-1000 Diagnostic Ultrasound System and Transducers be used for diagnostic ultrasound imaging in Cardiac, Gynecological, Neurological, Obstetrical, Neonatal, Pediatric, Perinatal, Radiological, Vascular, Urological, Abdominal, Gastrointestinal, Trauma, Surgical and Endoscopic applications.</p> <p>The Aloka SSD-1400 is not indicated for ophthalmic applications.</p>
---------------------	---

AUG 30 2001

Mr. Kelvin Burroughs
Coordinator, Regulatory Affairs/Quality Assurance
ALOKA Co., Ltd.
Fairfield Boulevard
WALLINGFORD CT 06492-7502

Re: K012253
Trade Name: Aloka SSD-1000 Diagnostic Ultrasound System
Regulatory Class: II/21 CFR 892.1560
Product Code: 90 IYO
Regulatory Class: II/21 CFR 892.1570
Product Code: 90 ITX
Dated: July 16, 2001
Received: July 18, 2001

Dear Mr. Burroughs:

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

This determination of substantial equivalence applies to the following transducers intended for use with the Aloka SSD-1000 Diagnostic Ultrasound System, as described in your premarket notification:

Transducer Model Number

ASU-35-5
ASU-35B-5
ASU-67
ASU-1000C-3.5
UST-978-3.5
UST-984P-5
UST-990-5

UST-5524-5
UST-5534T-7.5
UST-5710-7.5
UST-5818-5
UST-5819T-5
UST-9101-7.5
UST-9102-3.5
UST-9103-5
UST-9104-5
UST-9112-5
UST-9116P-5

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval) it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Good Manufacturing Practice requirement, as set forth in the Quality System Regulation (QS) for Medical Devices: General (GMP) regulation (21 CFR Part 820) and that, through periodic QS inspections, the FDA will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, the Food and Drug Administration (FDA) may publish further announcements concerning your device in the Federal Register. *Please note:* this response to your premarket notification does not affect any obligation you may have under sections 531 and 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This determination of substantial equivalence is granted on the condition that prior to shipping the first device, you submit a postclearance special report. This report should contain complete information, including acoustic output measurements based on production line devices, requested in Appendix G, (enclosed) of the Center's September 30, 1997 "Information for Manufacturers Seeking Marketing Clearance of Diagnostic Ultrasound Systems and Transducers." If the special report is incomplete or contains unacceptable values (e.g., acoustic output greater than approved levels), then the 510(k) clearance may not apply to the production units which as a result may be considered adulterated or misbranded.

The special report should reference the manufacturer's 510(k) number. It should be clearly and prominently marked "ADD-TO-FILE" and should be submitted in duplicate to:

Food and Drug Administration
Center for Devices and Radiological Health
Document Mail Center (HFZ-401)
9200 Corporate Boulevard
Rockville, Maryland 20850

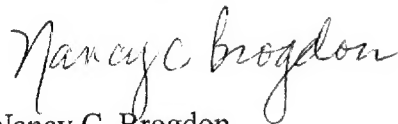

This letter will allow you to begin marketing your device as described in your premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed

predicate device results in a classification for your device and thus permits your device to proceed to market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801, please contact the Office of Compliance at (301) 594-4591. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or at (301) 443-6597 or at its Internet address "<http://www.fda.gov/cdrh/dsmamain.html>".

If you have any questions regarding the content of this letter, please contact Rodgrio C. Perez at (301) 594-1212.

Sincerely yours,

A handwritten signature in cursive script that reads "Nancy C. Brogdon".

Nancy C. Brogdon
Director, Division of Reproductive,
Abdominal and Radiological Devices

Diagnostic Ultrasound Indications for Use Form

System/Transducer	System
Model	SSD-1000
510(k) Number	Appendix E

Intended Use: Diagnostic ultrasound imaging or fluid flow analysis of the human body as follows:

Clinical Application	Modes of operation									
	A	B	M	PWD	CWD	Color Doppler	Amplitude Doppler	Color Velocity Imaging	Combined (specify)	Other (specify)
Ophthalmic										
Fetal		E	E						See Below	
Abdominal		E	E						See Below	
Intraoperative (specify)		E	E						See Below	
Intraoperative Neurological		E	E						See Below	
Pediatric		E	E						See Below	
Small Organ (specify)		E	E						See Below	
Neonatal Cephalic		E	E						See Below	
Adult Cephalic		E	E						See Below	
Cardiac		E	E						See Below	
Transesophageal										
Transrectal		E	E						See Below	
Transvaginal		E	E						See Below	
Transurethral										
Intravascular										
Peripheral Vascular		E	E						See Below	
Laparoscopic		E	E						See Below	
Musculo-skeletal Conventional										
Musculo-skeletal Superficial										
Other										

N= new indication; P= previously cleared by FDA; E= added under Appendix E;

Additional Comments: B/M-Mode

Intended Use: Diagnostic ultrasound imaging or fluid flow analysis of the human body as follows:

Clinical Application	Modes of operation									
	A	B	M	PWD	CWD	Color Doppler	Amplitude Doppler	Color Velocity Imaging	Combined (specify)	Other (specify)
Ophthalmic										
Fetal										
Abdominal										
Intraoperative (specify)		E	E						See Below	
Intraoperative Neurological										
Pediatric										
Small Organ (specify)										
Neonatal Cephalic		E	E						See Below	
Adult Cephalic										
Cardiac										
Transesophageal										
Transrectal										
Transvaginal										
Transurethral										
Intravascular										
Peripheral Vascular										
Laparoscopic										
Musculo-skeletal Conventional										
Musculo-skeletal Superficial										
Other										

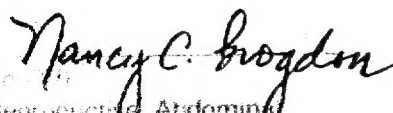

N= new indication; P= previously cleared by FDA; E= added under Appendix E;

Additional Comments: B/M-Mode

(PLEASE DO NOT WRITE BELOW THIS LINE - CONTINUE ON ANOTHER PAGE IF NEEDED)

Concurrence of CDRH, Office of Device Evaluation (ODE)

Prescription Use (Per 21 CFR 801.109)

 Division Sign-off
 Division of Reproductive, Abdominal
 and Radiological Devices
 510(k) Number 4012253

Diagnostic Ultrasound Indications for Use Form

System/Transducer	Transducer
Model	UST-9112-5
510(k) Number	Appendix E

Intended Use: Diagnostic ultrasound imaging or fluid flow analysis of the human body as follows:
